SHAN WESLEY BACHAIN

Angono, Rizal, Philippines | 0976 265 2310 | bachainshanwesleyb@gmail.com
GitHub: github.com/shanxwesley | Open to Internships & Collaborations

PROFESSIONAL SUMMARY

Fourth-year Computer Engineering student and Top Performing Student with hands-on experience building AI-integrated web applications. Delivered a contest-winning interview preparation platform from concept to deployment. Strong foundation in full-stack development, databases, IoT, and AI prompting. Seeking internship opportunities in software development and AI applications.

EDUCATION

BS in Computer Engineering, University of Rizal System - Antipolo Campus
Expected 2027 | Top Performing Student, College of Engineering
Coursework: Programming, Data Structures, Embedded Systems, Database Management, Software Engineering

Senior High School (STEM), Sumulong College of Arts and Sciences
2021 - 2023 | Valedictorian, With Highest Honors

PROJECTS

JobInterviewPro | Backend Developer | Live Web App | *Winner, 2025 System-Making Contest*
- AI-assisted web app for practicing job interviews, with Groq API integration for AI-powered coaching and feedback.
- Designed backend services with Firebase and MySQL for user data and session management.
- **Tech:** JavaScript, HTML, CSS, Groq API, Firebase, MySQL
- **Live:** interviewprox.rf.gd/job-interview/public/

DevKit | Live AI-Powered Toolkit
- Document and code toolkit for students and developers: formats JSON, edits Markdown, generates READMEs, explains errors.
- **Tech:** JavaScript, HTML, CSS, Vercel | **Live:** devkit-five-livid.vercel.app

Aether | Interactive Web Experience
- Interactive interface where visitors' words become memory and their thoughts reshape a responsive visual field.
- **Tech:** JavaScript, HTML, CSS, Vercel | **Live:** aether-nine-dun.vercel.app

Eco-Smart Station (RainErgy) | Thesis, Team of Five, Co-author
- ESP32-based prototype for rainwater harvesting, filtration, and hybrid solar and microturbine power.
- Submitted for patent or utility model registration.
- **Tech:** ESP32, IoT, Renewable Energy Systems

TECHNICAL SKILLS

Programming & Web	Python, PHP, JavaScript, HTML, CSS
Databases & Backend	MySQL, NoSQL, Firebase
AI Integration	Groq API, Llama models, AI Prompt Engineering
Hardware & Embedded	Arduino, ESP32, Sensors, IoT Systems
Tools & Workflow	GitHub, VS Code, GitHub Pages, Version Control

ACHIEVEMENTS & HONORS

- System-Making Contest Winner (JobInterviewPro), 2025
- SM Foundation Scholar, 2023 to 2027
- Top Performing Student, College of Engineering
- Senior High School Valedictorian, 2023
- Third Place, Provincial Statistics Quiz Bee, 2023
- BRITE Program Research Seminar Participant, 2025
- Junior High School Valedictorian, With Honors, 2021
